## Software Developer

As a software developer, I am drawn to managerial flexibility, leveraging my technological proficiency in Information Technology to craft responsive websites that contribute meaningfully to the community. My influential skills have been honed through experiences at Moringa School, where the primary focus is addressing societal challenges through the development of dynamic websites. Passionate about fostering female growth and empowerment and committed to youth development, I am eager to contribute to collaborative environments. My adept social skills ensure effective collaboration, allowing me to bring my best to meet the specific requirements of any given project.
